About

BIOGRAPHY

Dr. Gopal Menon is a fellowship trained surgical oncologist at Goshen Center for Cancer Care. He diagnoses and treats patients with cancers primarily of the head, neck and esophagus; gastrointestinal and endocrine systems; as well as skin cancers and sarcomas.

In addition to his training in general surgery, Dr. Menon has advanced experience in complex oncologic surgery and multidisciplinary care of patients with cancer. He has a strong interest in minimally invasive techniques, including robotic-assisted procedures. His research interests include surgical efficiency, patient safety, quality of care, cost-effectiveness and global surgery.

PHILOSOPHY OF CARE

Individualized care and respect for each patient form the foundation of Dr. Menon's approach to care. He simplifies complex processes and provides education and understanding to help patients make informed decisions about their care.
