About

BIOGRAPHY

Dr. Lorrie Weaver is a board certified obstetrician and gynecologist at Goshen Physicians OB/GYN. She specializes in treating women throughout their lifespan, from adolescence to menopausal years. Dr. Weaver provides comprehensive women's healthcare, including wellness visits and care during and after menopause transition. She also has extensive experience in caring for patients before, during and after pregnancy.

Dr. Weaver has completed training in infertility, vaginal hysterectomies and surgery to treat women with pelvic floor prolapse. She also pursues an ongoing interest in evaluating the benefit of prenatal exercise on improved birth outcomes.

When Dr. Weaver is away from her medical practice, she enjoys spending time with family and is her children's biggest fan at their sports events. The outdoors offers a wide open retreat for Dr. Weaver, where she finds rejuvenation and relaxation as she gardens, hikes or kayaks.

PHILOSOPHY OF CARE

Dr. Weaver believes wellness is a lifestyle choice. Her approach to care starts with getting to know patients and forming a partnership with them. Dr. Weaver encourages patients to share in the decision-making process and take an active role in improving their health and well-being.
