About

BIOGRAPHY

Sammy Bostaji, MD, is a board certified pulmonologist who is fellowship trained in interventional pulmonology. He performs minimally invasive procedures that use a bronchoscope to look in the airways of the lungs and surrounding areas.

Dr. Bostaji diagnoses patients with diseases or disorders of the lungs, airways, esophagus and chest. He is specially trained in endoscopic procedures to remove blockages from airways of the lungs.

Dr. Bostaji has a special interest in lung cancer and smoking-related lung diseases including chronic obstructive pulmonary disease, emphysema and chronic bronchitis.

PHILOSOPHY OF CARE

Every patient has unique needs and preferences that Dr. Bostaji understands and respects. He tailors his patients' care to meet their needs and does not practice a one-size-fits-all approach. Dr. Bostaji welcomes and encourages his patients to take an active role in their healthcare decisions and treatment.
