About

BIOGRAPHY

Dr. Nicholas Panting is a board certified family medicine doctor at Goshen Physicians Parkway at 17. He provides primary care for all ages, from newborns and adolescents to adults of every generation.

Patient care starts with preventive medicine for Dr. Panting, including wellness checkups, routine health screenings and immunizations. He also helps patients manage chronic conditions, such as heart disease, high blood pressure and diabetes. In-office procedures Dr. Panting offers range from wart and mole removal to joint injections, circumcisions and vasectomies.

Dr. Panting has a special interest in women's health care. His services include care for women during pregnancy, newborn care and attention to establishing healthy mother-baby relationships. He also provides contraceptive care.

Time with family means everything to Dr. Panting when he is away from his medical practice. He is a big believer in donating his time, talent and treasure to his church and community. A sports enthusiast at heart, Dr. Panting is an avid spectator at University of Notre Dame events and enjoys a game of golf or a quiet afternoon fishing.

PHILOSOPHY OF CARE

Dr. Panting believes everyone has the right to good health and well-being. He places a strong emphasis on the patient's investment in their own health and encourages patients to share in the decision-making process. His approach to care reflects how he would want his own family treated.
